Subject: RE: IN CCR call agenda

Susan:

Indiana would like to discuss the following items during our Friday conference call:

1. How is EPA going to regulate legacy ponds. Which ponds will fall into this category. Indiana is currently closing some "legacy ponds" that are not currently regulated under CCR regulations (these ponds do not hold water).
2. Indiana has power plants that stopped producing electricity before CCR rule went into effect but their ponds still hold water therefore they would be classified as the "inactive ponds". How is EPA going to regulate these inactive ponds at the closed power plants?
3. Update on Indiana's CCR rule writing efforts.

Please let me know if you have any questions.

Thanks

Hi IDEM CCR team,

I wanted to see if there was any questions/agenda items for our IN CCR rule call next Friday. This way HQ can be prepared for the discussion and help find the best answer to your rule questions. Also, if you would like to share a computer screen via GoToWebinar to show specific language you would like reviewed (vs. sending material in an email), let me know and I can make sure it is provided. If you have anything, please let me know by Wednesday.

Thanks and have a great weekend!
